A female trampolinist is captured in mid-air, performing a high jump. She is wearing a blue and black leotard and black shorts. Her arms are raised, and her legs are extended. The background shows the interior of a trampoline gym with a wooden floor and a ceiling with a large circular light fixture.

All UNITRAMP trampolines are constructed to the same high standards. Frames are manufactured from extra heavy gauge steel tube, are zinc plated to provide scratch resistant hardwearing and attractive finish. Coverall frame pads made from lightweight foam and covered in nylon reinforced flame retardant PVC

All trampolines conform to BSEN 13219

LIFT/LOWER ROLLER STANDS:

Available on all size trampolines (except safety side models). These rollerstands facilitate folding and enable any trampoline to pass through a standard size door when folded

FIXED SAFETY SIDES:

The ultimate coaching aid enabling the instructor to stay close to the performer at all times. Available on M and GM models (not compatible with lift/lower rollerstands)

SIZES:

Three sizes of trampoline are manufactured to suit all needs from beginners to international competition

Model GMEX

International competition model trampoline - nominal frame size 5.1m x 3.0m x 1.15m (our equivalent to Nissen DInamic, Grand Master Exclusive and 101 series trampolines)

Model GM

The most popular club and sports hall trampoline - nominal frame size 5.1m x 3.0m x 1.05m (our equivalent to Nissen Goliath trampolines, Euro Grandmaster and 99 series trampolines)

Model M

The most popular school model trampoline - nominal frame size 4.6m x 2.7m x 1.0m (our equivalent to Nissen 77a trampolines, Euro Master and 77 series trampolines)

OPTIONS:

- ✓ Suspension can be either elastic rubber cables or steel springs
- ✓ Beds are manufactured from either solid nylon or nylon webbing, 6 x 4mm, 6mm, 13mm, 25mm or 45mm
- ✓ Lift/lower rollerstands (see insert)
- ✓ Fixed safety sides (see insert)
- ✓ Frame pad elevators - special support springs keep the pads off of the suspension system to reduce noise and improve performance

KEY TO OUR TRAMPOLINE CODES:

- GMEX/GM/M** Model of trampoline
- 6/64/13/25** Size of the webbing on the trampoline bed
- L** This trampoline comes complete with lift/lower rollerstands
- E** This trampoline comes complete with pad elevators
- SS** Fixed safety sides

	M 25	✓					✓		4.6	2.7	1.0	1970	£2,687.26

If your trampoline needs safety side rails please add SS to the code. Additional sum of £396.68 per trampoline. Please note these cannot be used in conjunction with lift/lower rollerstands and increase the width of the trampoline. Overall trampoline dimensions have a tolerance of +/- 60mm (excluding heights). If you require dampened lift lower roller stands please add DP to the code. Additional sum of £298.13 per trampoline.

2 INTERNATIONAL SPOTTING DECKS

SPT/DEC/INT

£2,563.83 pair

Competition spotting decks for GMEX trampoline, complete with wedge shaped absorbent mats. Size: 3.025m x 2.025m x 0.21m including transportation trolley

3 SPOTTING DECKS

SPT/DC/STD

£1,449.64 pair

Robustly constructed framework, folding, wheelaway, zinc plated to give an attractive hardwearing finish. Shock absorbing compression springs fitted as standard. Fully adjustable to fit all Unitramp and Nissen trampolines and complete with wedge shape safety mats. Mat size is 2.44m x 1.22m x 0.2m. Ideal for schools and leisure centres

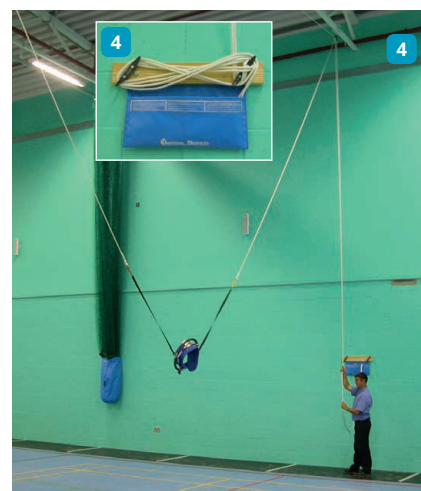

4 SPOTTING RIG

SPT/RIG

Price on application

Overhead spotting rig for use with trampolines, complete with all necessary brackets, ropes, pulleys, cleats and shackles (belts not included)

Please contact our Sales Department for prices and installation details

5 TUMBLING & TWISTING BELTS FOR SPOTTING RIG

- A TUM/BLT/SML Small tumbling belt, to suit waist size 460mm-660mm (18"-26") **£99.15 each**
- TUM/BLT/MED Medium tumbling belt, to suit waist size 660mm-830mm (26"-33") **£99.15 each**
- TUM/BLT/LGE Large tumbling belt, to suit waist size 830mm-1110mm (33"-44") **£99.15 each**
- TUM/BLT/STR Tumbling belt straps (needed if not already on your spotting rig) **£26.53 each**
- B TWS/BLT/LGE Twisting belt - large to suit waist size 760mm - 990mm **£766.92 each**
- TWS/BLT/SML Twisting belt - small to suit waist size 500mm - 710mm **£766.92 each**

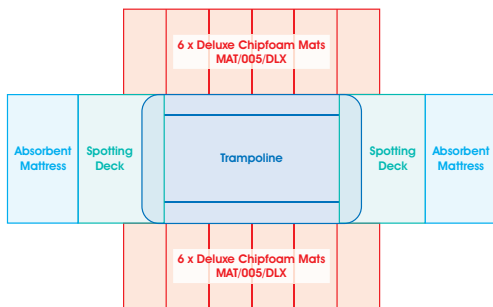

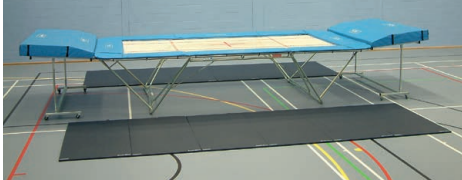

TRAMPOLINE SAFETY NEWS FROM AFPE (EXTRACT ONLY PLEASE REFER TO AFPE FOR FULL DETAILS)

This advice is directed at curricular/extra curricular school trampolining which could include where appropriate rotational 360 degree feet to feet movement (basic somersaulting). For high bouncers, additional provision is required in line with British Gymnastics recommendations for club training

THE USE OF END DECKS AND MATTING: The use of end decks and mat surrounds is inter-related to the new spotting code of practice. afPE strongly recommends the use of end decks, particularly where staff wish to develop rotational feet to feet 360 degree movement. British Gymnastics Risk Assessment (Feb 2007) concluded "falls arising from performers projecting from the sides of trampolines were relatively rare and that much greater risk arose from performers projecting from the ends". Matting should be used down the sides of trampolines offering protection to a width of 2m and 20-25mm thickness. It is acceptable for trampolines to be placed side to side or end to end provided the intervening metalwork and springs are suitably protected

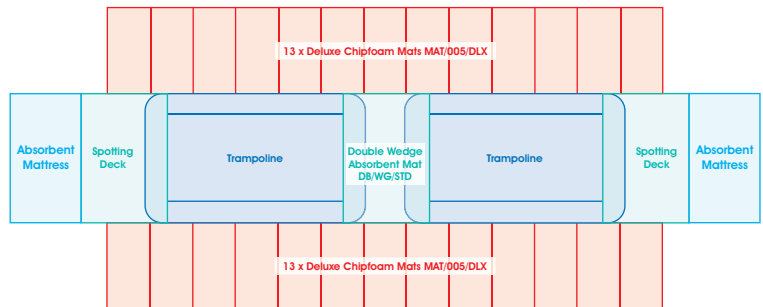

SPOTTERS: With the provision of end decks and mat surrounds spotting is no longer seen as essential. Injuries to spotters in the past have contributed towards this thinking. However, providing spotters have been suitably trained and are physically capable they can operate as an additional line of defense. Using pupils in this way can add to their sense of responsibility and involvement. There should be no more than two spotters down each side of the trampoline

In response to this Universal Services now manufacture the correct size mats for the side and ends of trampolines as per these guidelines. We have illustrated below the correct mats required for single and double use trampolines for schools. For regional, club and national competitions further matting is required

Single trampoline use for curricular/extra curricular school trampolining

This package consists of 1 x GM 13L trampoline, 1 x pair spotting decks, 12 x deluxe mats and 2 x 3000x2000x200 Absorbent Mattress

Double trampoline use for curricular/extra curricular school trampolining

This package consists of 2 x GM 13L trampolines, 1 x double wedge mats, 1 x pair spotting decks, 26 x deluxe mats and 2 x 3000x2000x200 Absorbent Mattress

1 THROW IN MAT

THR/MAT

£123.97 each

Throw in absorbent mat with two handles on each long side. Size: 1.7m x 1.0m x 100mm

2 DOUBLE WEDGE ABSORBENT MAT

Double wedge absorbent mat complete with 4 lifting handles and fixing straps, suitable for placing between end to end trampolines

DB/WG/SML 2.4m x 1.37m x 200mm

£319.09 each

DB/WG/STD 3.05m x 1.52m x 266mm

£361.00 each

3 ABSORBENT MATTRESS

MAT/206/STD 3000 x 2000 x 200mm

£465.38 each

MAT/206/FRT As above but with flame retardant foam

£495.92 each

Manufactured using absorbent durable polyurethane foam with hardwearing nylon reinforced blue PVC covers. Covers are envelope type with hook and loop fastening at one end and complete with webbed carrying handles. All Universal Services absorbent mattresses are supplied with anti-slip base as standard

Flame Retardancy: All covers are flame retardant treated. In our standard range non combustion modified foam is used. In the flame retardant range combustion modified foam is used and satisfies HM Government Furniture and Furnishing Fire Safety Regulations

4 DELUXE (CHIPFOAM) MAT

MAT/005/DLX 2000 x 1000 x 25mm

£70.06 each

Manufactured from high grade 10lb density chipfoam, with blue reinforced hardwearing PVC cover adhered to top surface with 2" base overlap. All corners are heat sealed. Complete with ribbed anti-slip latex base as standard

5 TRAMPOLINE STEPS

TRM/001/STP

£540.00 each

Set of foam steps to aid mounting of trampolines, six treads, with heavy duty foam inners and 610gsm PVC coated fabric outer cover. 1000mm high x 1500mm deep x 1000mm wide

1

1 WEB BED

T/GM/BED/064	6mm x 4mm web bed for GM trampoline	£1,333.00 each
T/GM/BED/006	6mm web bed for GM trampoline	£1,263.19 each
T/GM/BED/013	13mm web bed for GM trampoline	£1,033.29 each
T/GM/BED/025	25mm web bed for GM trampoline	£906.58 each
T/GM/BED/045	45mm web bed for GM trampoline	£842.74 each
T/M/BED/013	13mm web bed for M trampoline	£830.40 each
T/M/BED/025	25mm web bed for M trampoline	£984.00 each
T/M/BED/ULT	Ultra mesh bed for M trampoline	£466.59 each

2 LIFT/LOWER ROLLERSTANDS

GM/RST/LLW	For GM and Goliath trampolines	£542.33 pair
M/RST/LLW	M and 77a trampolines	£542.33 pair

3 ROLLERSTANDS

GM/RST/STD	For GM trampoline	£203.37 pair
M/RST/STD	For M trampoline	£203.37 pair

2

Lift/Lower Rollerstands are not suitable with safety side rails

3

4

4 FRAME PADS

GM/CPD/STD	Coverall frame pads for GM trampoline	£478.88 set
GM/CPD/SSD	Safety side coverall frame pads for GM trampoline	£572.33 set
M/CPD/STD	Coverall frame pads for M trampoline	£402.29 set
M/CPD/SSD	Safety side coverall frame pads for M trampoline	£429.70 set

5 TRAMPOLINE COVER

Blue flame retardant PVC cover for trampoline, cover has full height hook and loop seams at either end to enable the cover to be easily put on and removed. Only suitable for Unitramp and Nissen trampolines and not suitable for trampolines with safety sides

TRM/001/COV	For GM trampoline with standard rollerstands	£164.44 each
TRM/002/COV	For GM trampoline with lift/lower rollerstands	£164.44 each
TRM/003/COV	For M trampoline with standard rollerstands	£164.44 each
TRM/004/COV	For M trampoline with lift/lower rollerstands	£164.44 each

5

6 10" STEEL SPRING
TRM/SPR/UNI **£2.30 each**

7 RUBBER CABLE
TRM/CBL/UNI **£4.76 each**

8A

8B

8 CASTOR ASSEMBLY

A GM/CST/STD	(Polyurethane tyre) for GM trampoline	£26.84 each
B M/CST/STD	(Rubber tyre) for M trampoline	£25.51 each

9

9 CHAIN ADJUSTER
TRM/ADJ/UNI **£16.39 each**

10

10 QUICK LINK JOINER
TRM/LNK/UNI **£4.35 each**

11

11 ROLLERSTAND HOOK
TRM/RST/HOK **£5.97 each**
Complete with starlock washer and cap

12

12 5" FLOOR GUARD
TRM/FGD/005 **£4.86 each**
Complete with rivets

13

13 COMPRESSION BUSH ASSEMBLY
TRM/BSH/UNI **£5.02 each**

14

14 HINGE PIN (SPIRAL)
TRM/HPN/UNI **£3.82 each**

1 STANDARD MINI TRAMP

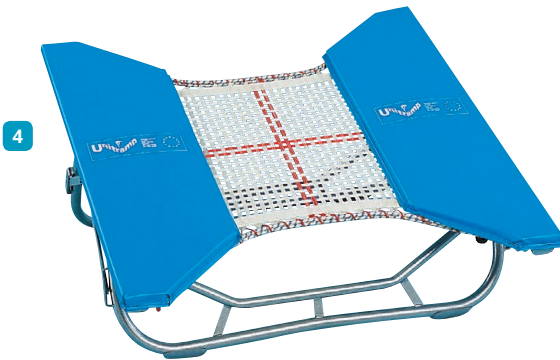

SM Series

Frame size is 1140mm x 1140mm x 310/550mm. Manufactured to the same high standards as our other mini tramps. Fully height adjustable legs. Choice of either solid nylon or 6mm, 13mm or 25mm web bed. Choice of rubber cables or steel springs. Complete with coverall frame pads. Conforms to BSEN 13219:2008

2 3 ELITE DOUBLE MINI TRAMP

DML 6 & DML 13

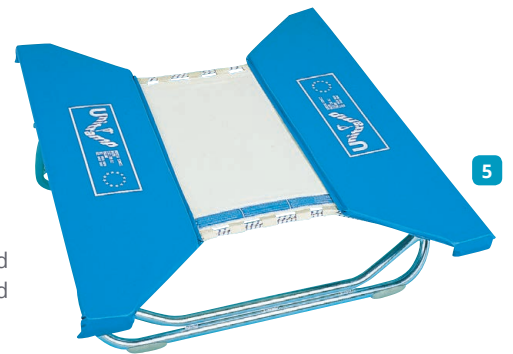

Competition model Elite double mini trampoline. Frame size is 3500mm x 1900mm x 700mm. Constructed from heavy gauge tube, laser cut spring retaining plates and zinc plated. Supplied with fixed height rollerstands for ease of transport. Foam filled side and leg pads which are covered in nylon reinforced PVC. Non-marking floor pads are fitted as standard. Manufactured to FIG specifications. Available with a 6mm or 13mm bed

4 OPEN ENDED MINI TRAMP

OM 13 Series

Frame size is 1210mm x 1185mm x 305/610mm. Constructed from heavy duty gauge tube and zinc plated. Fully height adjustable and supplied with shaped frame pads, steel springs and 13mm web bed

5 SCHOOLS MINI TRAMP

OM SC Series

Schools open ended mini trampoline. Frame size 1210mm x 1185mm x 305/610mm. Constructed from heavy duty gauge tube, zinc plated. Fully height adjustable and supplied with shaped frame pads rubber cables and solid nylon bed
